AMBIUS DOWNLIGHT RANGE

The Ambius Downlight range has been crafted for New Zealand homes. The range has been engineered to deliver exceptional performance at low cost and has a proven record of reliability. Ambius Downlights now are a key solution for lighting in New Zealand homes. There is a downlight to suit almost every application - new builds, retrofit, designer, task, ambience.

The range includes tilt, spot, deep recess and fire rated downlights providing extensive lighting options - we have you covered.

FEATURES AVAILABLE IN THE DOWNLIGHT RANGE:

INTERCHANGEABLE FASCIAS

There are over 8 different fascia finishes available for various downlight models.

ABUTTED AND COVERED

All Ambius downlights can be covered with insulation and on many models zero clearance to building materials.

FIRE RATED

Where specification calls for a fire rated downlight the Ambius range also includes a fire rated product.

COLOUR TEMPERATURE

The range includes options in 3K/4K/5K/6K colour temperatures. Some models can be changed with the flick of a switch.

QUICK WIRE

This is a feature on a number of downlights for quick and easy wiring.

DOCUMENTATION

All Ambius products are rigorously tested to meet NZ standards and supplied with appropriate documentation.

HIGH CRI

High CRI for exceptional colour rendering.

PRE-WIRE

The Ambius range includes low profile product with independent drivers which can facilitate a pre-wire option.

NOTE: please check the instruction manual for each product for clarification of the features included with each downlight.

CONNECTION METHODS

Everyone has slightly different preferences on how they choose to install downlights, we have a range of options to suit your needs. All our downlights come with large terminals and smart connections to make the installation quicker and safer.

PRE-WIRE

REMOTE CONNECT

QUICK CONNECT

TWIST LOCK

Allows pre-wiring of the LED driver - simply twist to connect and complete the install.

REMOTE CONTROL

Mains connection can be made away from the downlight body.

SCREWLESS TERMINALS

Simply press down on terminals, insert cable and release.

COLOUR TEMP/3T/CCT

COLOUR CHANGE

Ambius has developed a range of downlights that provide a variety of lighting solutions. From changing the colour temperature on the downlight to choosing a high performance light, there is a downlight to suit your requirements.

3K

WARM WHITE
3000K

Cosy and inviting “honey” tones which are closest to traditional lighting

4K

NATURAL WHITE
4000K

Mimics the effect of natural light and has a very neutral effect

5K

DAYLIGHT
5000K

Crisp and refreshing light which is often used in kitchens & bathrooms

Change on Downlight

Various applications call for different colour temperatures. Ambius has provided a range where this is done with a simple click of a switch on the fitting. This can be either above or below ceiling – check the options in the range

Change on Wall Switch

In an open plan environment it is helpful to simply change the colour temperature in any given area to suit the activity. This feature makes this very simple by just flicking the light switch on the wall.

What is CRI?

The CRI of LED is a colour rendering index. The CRI is a measure of a light’s ability to reproduce the colours of objects in comparison with a natural light source (CRI 100).

INDOOR LIGHTS
CRI 80+

HIGH PERFORMANCE
CRI 90+

EXTERIOR LIGHTS	INDOOR LIGHTS	HIGH PERFORMANCE
CRI 70+	CRI 80+	CRI 90+

FASCIAS

Fascias are the perfect way to create a new look without changing your whole downlight. Simply twist off and replace. [refer to table]

PAINTABLE FASCIA

Removable fascia enables you to paint to a colour of your choice. Match your paint colour requirements. Talk to your painter or local paint shop.

DOWNLIGHTS WARRANTY

3 years on Driver. 3 years on Fitting

- The warranty on downlights is from the date of purchase and against defects in the material and / or workmanship.
- This warranty is subject to the products being installed, wired, operated and used in accordance with the instructions and specifications.
- Any alterations or modifications made to the products without permission will void the warranty.
- Particulars of any potential fault / defect must be notified within 28 days of any fault / defect being detected.
- Ambius will at its discretion repair, replace or refund any product found to be defective.
- The cost of replacement or repair of a defective product is limited to the price of the product only.

lighting
solutions

J. A. Russell Ltd is proud to have a national in-house team of tertiary qualified staff dedicated to the art of lighting. This service offers our customers independent, expert advice on their lighting requirements, latest trends and innovation.

With every project we aim to provide a solution that is within the client's budget, time constraints and lighting requirements. At J. A. Russell Ltd we look forward to working with you on your next Lighting Solution requirements.

GETTING THE RIGHT LIGHT FOR THE RIGHT PLACE

Lighting can have a big impact on the overall feel and functionality of a home; today there are so many options and products it is important to get it right. Each room needs to be carefully considered as to which lighting solution will provide the desired result to meet your needs.

GENERAL LIGHTING

General or background lighting plays the part of daylight in the home and is usually provided by a central light(s) on the ceiling.

If supplemented by some other types of lighting you'll get great flexibility with your lighting scheme.

ACCENT LIGHTING

Accent lighting gives focus and texture to your general lighting.

It can add depth and shade creating shadows or pools of light. Spotlights and wall lights are common fittings used for this purpose, but you can also use directional pendants and table lamps.

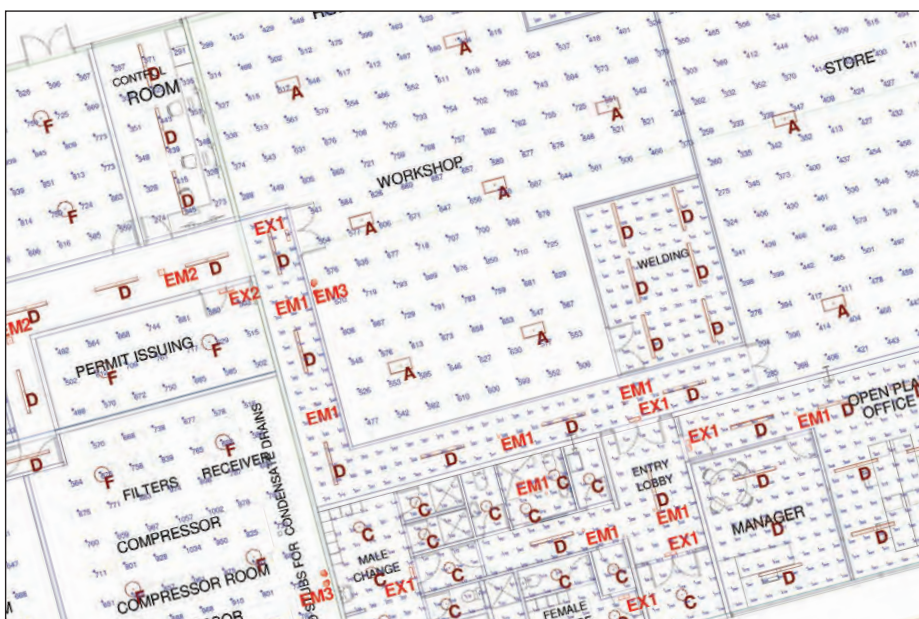

TASK LIGHTING

Task lighting is a light you need to do a specific job. Whether it is reading, working at a computer, cooking or drawing, it needs to be focused on the area you are using.

At J. A. Russell Ltd, lighting is a core focus of our business. We stock an extensive range of lighting products across the industrial, commercial & residential lighting markets.

Our national in-house award winning Lighting Solutions team, can provide expert advice on all lighting requirements.

We can engineer quality compliant lighting designs to suit every project.

Ambius Residential Lighting provides practical solutions for the entire home, both inside and outside. Check out the complete range available from both kitchens and bathrooms right through to outdoor living and gardens.

Wired to fit

With the option of left or right hand cord entry and combination legs within the box, all the bases are covered. Whether you have a new build or renovation, concealed or exposed cord wiring, you can be sure you have everything within the one box when purchasing Goldair.

Concealed Wiring

Achieve the most minimalist aesthetic by concealing your cables.

Exposed Wiring

An easy retro-fit solution. Suited for renovating and replacing existing towel warmers.

A Touch of Style

A subtle blue glow means your towels are being kept toasty dry. Use this button to activate or de-activate your towel warmer.

Back-Lit Mirror

Add a touch of sophistication with these back-lit mirrors. Clean lines with simple, easy-to-use touch controls providing demist, dimming and colour temperature functions.
