

on2Site is a one stop online shop for all your electrical needs.

The on2Site app function is your built-in shop assistant, helping you to find products in store.

Use the barcode scanner or our efficient search function to find shelf location, pricing & product information. View product SDocs, stock availability, and location of stock with the touch of a button.

The Scan & Go mobile app allows you to shop in store. Utilise our stock management service to view quotes, and review your statements and balances, all within the app!

Explore our trade only online portal, bringing the branch to you 24/7.

Signing in, and account set-up.

How to Sign in:

- You can use the online desktop version of on2Site or download the app for Apple or Android devices.
- Sign in using your username and password. If you don't remember your password, you can reset it using the 'Reset Password' function.

How to register as the owner of your account:

To register as the owner, we require a minimum of 2, J. A. Russell Ltd statements as evidence. The total value of both statements must be visible.

- Select **'I am the owner' director or authorized administrator for my business.**
- Once you have registered as the owner you will be able to approve additional employee log-ins.

How to register as an employee of your account:

- An administrator/employer must grant access for employees to register.
- Select 'I am an employee that needs access to use on2Site'.
- The registration request will send an email notification to the account of the administrator /employer for them to grant access.
- Follow up with your employer and request them to accept your registration request.

Our Trade Portal

For account holders, here you can buy online, search through our entire product range or your own tailored catalogue, see what stock is available, download price files, set up file transfers, check your statements / invoices and review quotes and quote your customers. Either login above or to register for access click below

<Not Specified>

I am an employee that needs access to use On2Site.

I am the owner, director or authorized administrator for my business

Account Management - add, edit or delete users:

When adding a new user, the registration request will send an email notification to the employer for them to click the link and create a password. We recommend all employees start with a Basic or Standard user account.

- You can manage your On2Site users via the 'Manage Accounts' page.
- Change permissions you wish to grant a user.
- If a user leaves your business be sure to delete the user.

If you need to reinstate a user, please contact helpdesk@jarussell.co.nz.

[Add A New User](#)

Account Management - account types:

There are 3 account types you can use in on2Site.
Administrator, **Basic User** and **Standard User**.

- Basic User
- Standard User
- Administrator: all

This can be customized within the account at any time. Administrators can control the level of visibility held by employee accounts. For example, if you don't want your staff to see Buy pricing, untick See Buy Pricing.

Business owners will be registered with Administrator permissions, giving you full access to all services.

Administrators can access all features of on2Site including Statements and Balances, and stock management services.

Navigating the site.

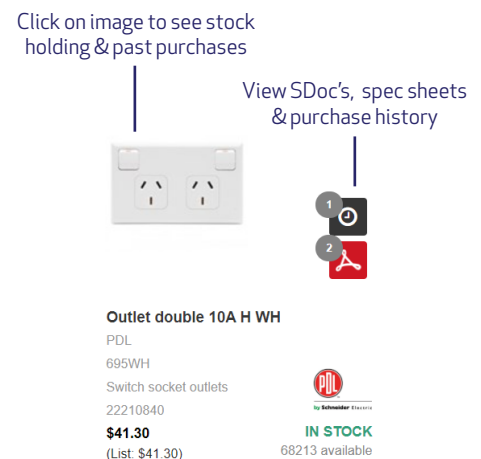

How to search for a product:

- Search products by keyword, category, description or product code.
- Set up permanent 'sticky' filters to make your searches even easier. Next time you log in, your preferences will already be set. E.g. Set up your local branch as a preference, so you always see stock available for that one location.
- Update or clear your preferences at any time.
- Custom search options i.e. search for @Source specials only etc.

Understanding product details:

- Check product compliance with SDocs and view spec sheets using the 'Document' icon.
- View recent purchases of product using the 'Clock' icon.
- Look for the '@Source' icon to see if the product is on promotion in our sales magazine.
- Preview the availability of stock at your desired location .
- View stock on hand at other locations .
- View your custom pricing on every item.
- Use the supplier part number to locate the product in store.

When placing an order, there are indicators for the branches current stock levels.

In Stock: Significant quantity of stock.

Running Low: There is a limited amount of stock available at the branch, we recommend calling to confirm stock levels.

Call to Confirm: Stock is at a level where availability should be checked.

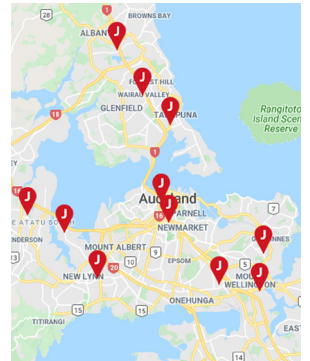

Will Backorder: There is currently no stock on hand at the branch, but this can be ordered in. We recommend calling ahead to confirm this with the branch and find out the ETA.

This feature allows you to see which branches have sufficient stock to supply your order in full. Click on the cart preview and select 'show'. This can also be viewed at the 'review order' stage. Select the drop down menu for 'branches' and any branch that can supply your order in full will be highlighted in green.

Locate your home branch:

We know your jobs are not always close to your 'home' branch. With on2Site you can check stock availability at any of our 81 branches around the country to make your job easier.

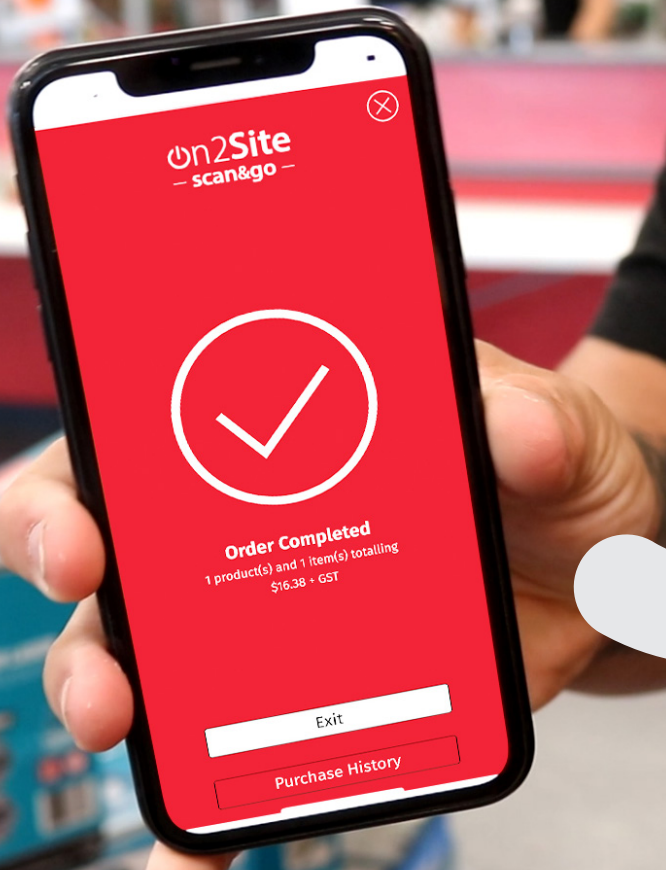

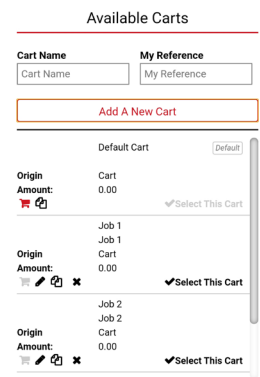

- Click & collect from any branch.
- Place your orders & we can deliver direct to site.
- Know what's 'on the shelf' at any branch & where to find it.

Creating Carts:

With on2Site you can have multiple carts to manage your different jobs on the go.

- Name your cart for your job.
- Turn quotes into a shopping cart with one click.
- Select the branch you want your cart to shop from.
- Your carts will not expire or disappear & they auto-save after each change you make.
- Easily convert a quote to an online order, providing 100% price guarantee.

on2Site -Scan&Go-

With on2Site you can scan & add products to your cart in store, proceed to checkout online and pay.

Select 'I'm at the branch now' & your packing slip will print at the counter, or use the industry leading search function to add items to your cart.

Minimize the amount of time spent standing at the counter.

Skip the queue

Express shopping

Quick stock top-ups

Contactless

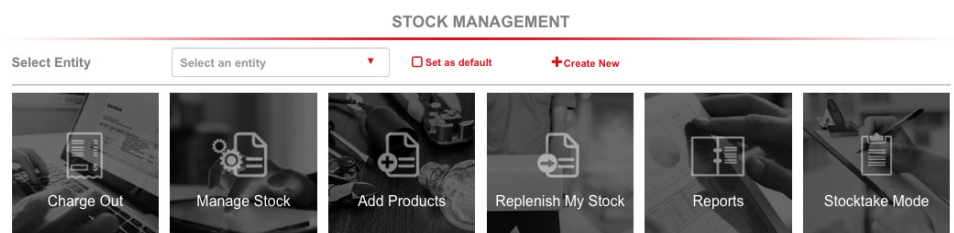

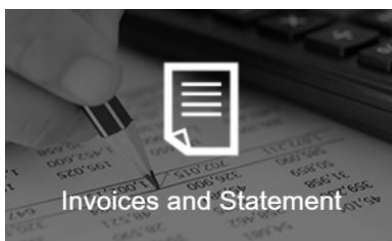

Administrator functions.

Invoices and Statements:

Our Invoicing and Statement platform allows you to search and find invoices and statements that have been created in the last 13 months.

With on2Site you can view your purchase history by product, including date of past purchases & price. This information is all linked to your invoices for easy viewing or downloading.

- Search by invoice number or your order number/reference.
- Download invoices in various formats.
- Multi-tick feature allowing bulk printing or download.
- Buy the same items again by simply selecting 'Order Again' from the action menu.
- Subscribe to automated delivery of invoices, quotes, price books and statements via our new Integrate engine.
- Integrate supports many formats.
- Receive files by Email or (S)FTP Push or Pull.
- Manage the destination email addresses.
- Make your own custom formats.
- Pick a schedule and collation that suits you best.
- External Integrations with Fergus, SimPRO and Smart Trade Software's.

Stock Management

Our stock management platform allows you to manage and track your stock in multiple locations.

- Create a stock entity e.g. van/workshop to manage stock in different locations.
- Add your own product to the stock entity.
- Create orders or automatically replenish stock for an entity.
- Manage & charge out products for multiple jobs.
- Track your entities through a suite of reports.
- Stocktake your entities to keep an accurate count of your stock.
- Manage functionality and access for each of your employees.

Quotes:

View, review, print and accept quotes created for you by our branches, contract offices and design teams. Plus, create your own customer quotes, modify add, markup and send to your customer.

Shows quotes from J. A. Russell Ltd & Radcliffe Electrical Branches

You can upload your company logo to show on quotes to your customer:
