HIGHLIGHTS

TECHNOLOGY

Makita-built brushless motor for superior runtime, power and durability.

DURABILITY

Equipped with eXtreme protection technology (XPT) to enhance dust and water ingress protection.

SPEED

Includes 3-speed options which allows the user to match the speed to the application

DESIGN

Ergonomically designed loop handle with rubberized soft grip for operators' comfort

FEATURES

High Power Output: Equipped with a high-power brushless motor.

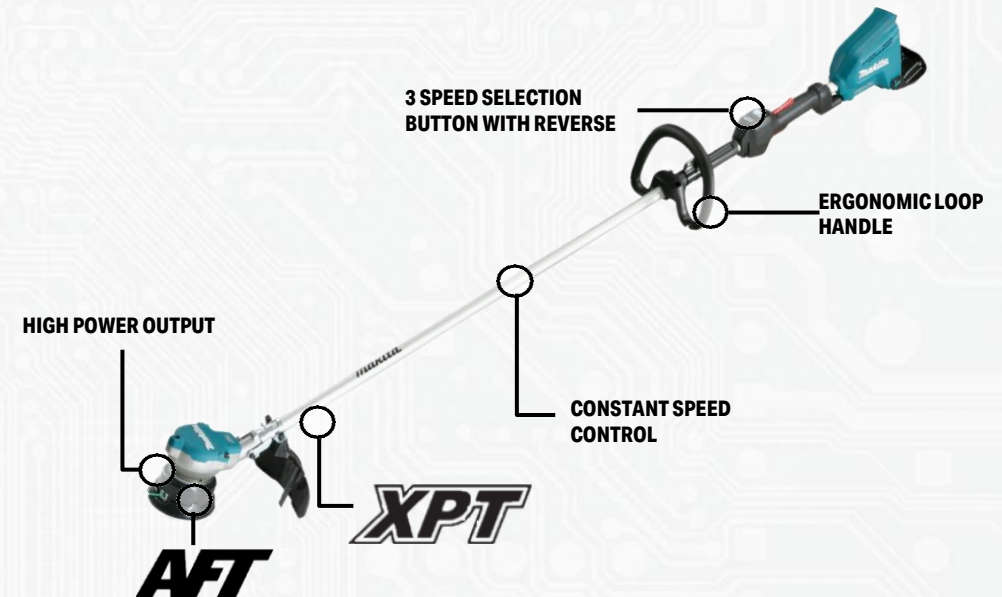

Reverse Function: For removing tangled grass around the spindle.

Low Noise: Using a low-speed high power motor, reduces overall noise compared to petrol variants

Speed Control: Enables users to cycle through 3 speed settings to match the application

Active Feedback Sensing Technology (AFT): Smart technology to minimize the effect of kick-back by shutting down the tool if the rotation slows down suddenly

eXtreme Protection Technology (XPT): Enhanced dust and moisture resistance
