LinKEO

Build connection

You told us: "cabling system that's easier and faster to install".
LinKEO C meets your expectations.

Introducing LinKEO C, our new structured cabling system dedicated to the LAN environment of small and large companies. Unique and innovative, LinKEO C is designed to provide installers with a complete and comfortable solution, quick to install and maintain, while providing performance with a 25-year warranty.

Discover how LinKEO C solutions speed up your installations, save your time as well as increase your productivity. ■

 To know more watch the tutorials: connectors termination & range presentation

UNIQUE DESIGN

Adopt a connector of unprecedented unique design: **toolless and easy-to-use**, effortless, take the advantage of the Legrand signature.

*"I can terminate and re-terminate easily, without any problems."
A telecom network technician*

FAST TERMINATION AND RE-TERMINATION

Each connector of the LinKEO C range can be **terminated under 1'10"**. And everything else is just as easy.

*"I save dozens of seconds per connection which transforms into hours at the end of the week."
A telecom network technician*

PERFORMANCE

Choose from a complete range, **from cat. 5e to cat. 6A**, available in unshielded and shielded versions.

*"We share gigabytes of data every day without a glitch."
A digital artist in the 3D animation industry*

A superlative connector

The new LINKEO C system brings to market a toolless keystone connector enabling fast connection in all categories from 5e to 6A. Simple and quick to terminate, its one-touch locking guarantees superior reliability for data transmission. Eco-designed and minimalist, its packaging reduces unpacking and waste: 100% neutral cardboard, no more plastic. ■

Designed to speed up your work

The innovative design of the LINKEO C keystone connector meets the expectations of professionals for simplicity and ease of installation. Its ergonomic design enables quick toolless connection. A greater comfort for reduced effort. It's easy to connect, disconnect and reconnect with no damage to the product. ■

LOCKING TAB : The colour code of the locking tab indicates the category – 5e, 6 or 6A – of the connector.

Push down the lever. Safely lock the connector.

LEVER : The optimized size and ergonomic shape of the lever means less pressure is required to manipulate it. A little of effort saved with each connection.

JACK : The jack and the lever can be separated to ease the process of re-termination.

The design of the connector eliminates any risk of accidental opening. Its mechanical locking clip secures the termination and transmission of data. Simply disconnect and reconnect.

Fast termination and re-termination

LINKEO C keystone connector is designed to make every step of the installation and maintenance process quick and easy. Each connector can be terminated under **1 minute 10 seconds**. And disconnected and re-terminated, without tools or any damage, in a matter of seconds. Connectors stay ready to use, again and again. ■

"Hearing your priorities in the field, we understand your need to optimize installation time." A Legrand design manager, Saint-Marcellin site in France

From 5e to 6A, the right performance for any client's need

From patch panels to terminal sockets, cables and cords, LINKEO C offers a complete range of equipment to create high-performance digital infrastructures.

At the heart of the system is the RJ 45 connector, available in all categories, from 5e to 6A, in shielded or unshielded versions. A colour code helps you identify them at a glance. ■

Cat. 6A STP/UTP	10 Gbits/s	Anthracite grey locking tab
Cat. 6 STP/UTP/FTP	1 Gbit/s	Light grey locking tab
Cat. 5e STP/UTP	1 Gbit/s	White locker locking tab

100% RECYCLED

Reduce waste, save time

Legrand has been committed to preserving the environment for long time. To intensify its efforts to reduce its carbon footprint, **the group is using 100% recycled cardboard packaging and is gradually eliminating plastic packaging from its products.**

That's why all LINKEO C products are delivered in 100% recycled cardboard packaging, without plastic film and ready to use. **This means you don't waste time unpacking the equipment and you reduce your on-site waste. ■**

A super-efficient and caring system

Our designers paid particular attention to the ergonomics of the new LINKEO C range. They focused on minimizing any discomfort or inconvenience associated with the repetitive handling of connectors and panels. And they simplified the execution of installation and maintenance operations. It's time to embrace a new ergonomic design that improves your comfort and your performance at work. ■

Pre-position panels for a quick look

LINKEO C's designers listened to your needs and created a system that meets your on-site requirements. They've optimized steps, simply and efficiently.

For example, you're able to pre-position any LINKEO C patch panels in the uprights to get a global overview of your installation. See a way to simplify your installation? Do it quickly and easily. No need to unscrew panels or disconnect any cords or cables. These little things save you time. ■

To know more watch the tutorial: Patch panel presentation

Pre-hold panels without fixing them

Designed to speed up your work, the LINKEO C patch panel facilitates installation and maintenance. Simply insert it into the uprights of the cabinet without screwing it in. It holds in place. You can now easily carry out all your operations. Screw each panel in place once everything is properly connected. ■

Easy cable management

LINKEO C patch panel comes with a rear cable management system as standard that lets you simply organize cables, providing a neat and clean installation.

On the back of the panel for example, several cable guides keep cables organized and properly routed through the cabinet. A practical solution that facilitates maintenance routines and limits inadvertent disconnects. ■

Ensuring end-to-end connectivity

Data socket adaptor for single Keystone connector ; white, 2 modules, marking area for an easy identification of the computer network. You can install it for snap-on trunking and column offers, desktop and under-desk multi-outlet ranges, floor, flush and surface mounting boxes. ■

Install for the long run

Confident in the quality of our solutions, Legrand guarantees the performance of our copper and fiber cabling systems for 25 years.

Subject to certain conditions, the "25-YEAR PERFORMANCE WARRANTY" provides assurance of correct functioning of the LEGRAND STRUCTURED CABLING SOLUTIONS for a period of twenty-five years. ■
